

AbdulHamid Ajao

Lagos, Nigeria | 08053546986 | ajaoolamiposi34@yahoo.com | GitHub: github.com/theonlyposi

Profile

Full-Stack Mobile & Web Developer with hands-on experience building mobile applications, backend systems, and websites. Skilled in Flutter, Dart, Node.js, PostgreSQL, and Firebase, with additional experience in HTML, CSS, React, and JavaScript. Passionate about creating efficient, user-focused solutions from concept to deployment.

Projects

Task Management App (*Freelance Project*)

- I. Built a cross-platform mobile app with **Flutter** for task creation, editing, deletion, and due date tracking.
- II. Integrated **OTP-based email signup**, password reset, and local notifications.
- III. Implemented backend with **Node.js**, **PostgreSQL**, and **Drizzle ORM** for secure data handling and offline syncing.

Ride Booking App (*Personal Project*)

- I. Developed a booking flow from location selection → driver search → ride start → completion.
 - II. Used **google map** for map rendering.
 - III. Integrated Firebase authentication and connected to backend APIs for ride management.
-
